PROJECTS

Smiski Grove **Sep 2024 – Dec 2024**
Software Developer

- Designed and developed a gamified platform for Smiski collectors, enhancing user engagement and improving figurine tracking and organization
- Built and deployed a full-stack web application using HTML, CSS, JavaScript, React.js, and Firebase, incorporating user authentication, data management, and interactive game features.

National Park Service **June 2023 – Aug 2023**
UX Design

- Redesigned the National Park Service website to improve visitor engagement and increase funding, utilizing Figma for prototyping and design.
- Built and published a comprehensive component library and with detailed documentation for design principles to ensure consistent and scalable practices.

WORK EXPERIENCE

Seasonal Specialist **Bellevue, WA**
Apple July 2024 – Jan 2025

- Identify and address customer needs by offering personalized solutions, guiding them through product selection, and facilitating setup.
- Conduct Vision Pro demonstrations, effectively showcasing advanced product features and capabilities to enhance their understanding and experience.
- Manage various responsibilities such as visual merchandising and team support, while staying informed about new products and initiatives.

Hostess, Server **Bellevue, WA**
Supreme Dumplings May 2023 – August 2024

- Manage Yelp reservation system as hostess, attending to customer needs and ensuring efficient table turnover.
- Regulate a high-volume section as server, communicating with kitchen staff to confirm timely and accurate delivery of orders, establishing guest satisfaction.
- Address guest concerns and complaints promptly and effectively, creating positive customer experiences.

Post-Liver Transplant Student Assistant **Seattle, WA**
UW Medical Center Feb 2022 – May 2023

- Entered Post-Liver Transplant lab data into Epic for physician review, and coordinated with external laboratories to expedite the location and input of pending results, ensuring accurate and timely documentation.
- Managed immunosuppression review reports and followed up with patients to address overdue lab tests and ensure adherence to UW care standards.
- Educated patients on lab protocols and dose change procedures, effectively conveying physician's results notes and providing guidance on scheduling future bloodwork.
